

What's up with our Teens in Windham County?

Hey parents...

Listen up!

Every two years, our middle and high school students in Vermont take the Youth Risk Behavior Survey. Here are some of the 2015 WINDHAM COUNTY results you should know about...

91% of middle school students believe their parents would think it's wrong or very wrong for them to drink

20% of middle school students have ever drank alcohol other than few sips. 7% of middle school students drank in the past 30 days

4% of middle school students have ever tried a prescription drug that wasn't theirs

28% of middle school students say they've been cyber bullied

5% of middle school students used marijuana in the past 30 days

86% of middle school students believe it's wrong for someone their age to smoke marijuana
